WHIG MOVEMENTS IN GEORGIA,

&c., &c., &c. Highly Interesting from Washington. SPECIAL CORRESPONDENCE OF THE NEW YORK HERALD

WASHINGTON, July 8, 1852. The Senate's Special Committee on the recent Mexican claims commission, has been sitting and taking evidence for some time. Strange developments are said to have been made. Several important documents have arrived from Mexico to the chairman, developing the nature and history of the Hargous' claim, which amounted to \$600,000, and which was all paid. It is said that Mr. Soule's committee will report soon, in a way to throw the

Gerdiner claim in the shade.

I understand that Mr. Webster, who left on Tuesday for Massachusetts, will not return to Washington at all. Probably Mr. Corwin will remain as long in Ohio. I suspect the Cabinet may now be considered exploded and broken up. Mr. Graham has resigned-Mr. Corwin is in the West, and Mr. Webster in the East, never to return

THE FLORIDA SENATORSHIP-MR. MALLORY AUTHORIZED TO RETAIN HIS SEAT.

WASHINGTON, July 8-81 P. M. The Special Committee of the Senate, in the case of the contested seat of Mr. Mallory, of Florida, have unanimously agreed to report in favor of the sitting member The question to be decided was, simply, whether blank votes should be counted for or against the person being ballotted for, Mr. Yulee, the contestant, it appears, received, upon the first ballot, 29 votes out of 59-the ba lance being cast for blank. This was the highest number he received, and no claim was set up at the time that he was elected. After several ballottings, Mr. Yulee was dropped, and Mr. Mallory taken up, who received a ma-jority of all the votes cast. It was clearly proved before the committee, that the universal usage in Florida ha been in all cases of election by the Legislature, to count votes cast blank as against the person voted for; and this fact, together with the evidence that Mr. Yulee and his friends well understood this usage at the time, by continuing to ballot till a majority was east for Mr. Mallo ry, was deemed conclusive, by the committee, that Mr. Mallory was entitled to his seat. The question does not effect any other Senator's seat, as has been asserted. It is made solely with reference to the law and usage of

THE DEMOCRATIC CONGRESSIONAL CAUCUS AND THE PUBLIC PRINTING—HON. HUMPHREY MARSHALL AND GEN. SCOTT, ETC. WASHINTON, JULY S, 1852.

The committee appointed by the chairman of the denocratic caucus of Monday evening to report at the adarned meeting to-night, consisted of Hon. William H. Polk, chairman, and Messrs. Bright, Soule, Hamilton Toucey, Jenkins, Rusk, Stuart, Barris, and Bayard. The committee met this morning, and unanimously resolved that the contract entered into with A. or delay in the execution of the public printing. That all motions to print extra copies of public documents be referred to a committee of the neares in which the same shall be made, and the expense of the same be paid out of the contingent fund of the two houses, is proportion to the number ordered by each, except the expense of composition, which shall be paid by the house first ordering the same.

On the re-assembling of the caucus this evening there was great disagreement among the members. Preston King preferred the contract system of printing But Senator Toucey, of Conu., Meers Bayly and Meake, of Vs., and others were in favor of electing a printer to Congress. Finally, after an animated discussion, the recommendations of the committee detailed in the previous paragraph, were adopted by a voice of fifty-soven to fourteen. The caucus adjourned about eleven o'clock. Hon Humphrey Marshall authorizes me to contradict the report in the papers that he is going to write a letter against Gen. Scott. He stands where he stood several days ago, and, as stated in my letter to the iteration, he is not, he says, on the same line with Toombs & Bon THE SECRETARYSHIP OF THE NAVY, ETC.

Washington, July 8, 18:2.

It is generally understood that Judge Eseklel F. Chambers will succeed Mr. Graham in the Navy Department, Judge C. was member of the United States Senate from 1826 to 1836.

The Republic, this morning, contains a letter from Senator Pearce, of Maryland, in reply to the committee of the whig ratification meeting, which fully endorses the nomination of Scott and Graham. He says, that if General Scott is elected President, it would add to his long and unsurpassed brilliant life, the crowning glory of the purest fidelity to the Constitution and the country. The letter pays a handsome tribute to then Scott.

He read the items, such as be ard, ten pariors, and seventeen chambers, brancy, segars, back hire, &c. These expenses were \$14 a day for each individual. He never could consent to pay this bill.

Mr. Cartes, (dem.) of Ohio, said this was the "smallest potatoc business" the House ever engaged in Mr. Jones wished to know whether the gentleman would or not vote for the amendment.

Mr. Cartes replied he would, if it was four times as much, and never disgrace this body by higging about it. Koesuth came here as the guest of the nation, under the supervision of a committee of the Senate. He was sorry to see an appeal made here to low prejudice and ignorance against a man who, thank God, had sown principles breadcast over this continent.

The procession was nearly an hour in pass-ing a given point. The business houses were generally closed, and all the public offices. The streets through which the procession passed were draped in mourning, belts were tolled, and minute guns were fred throughout the day. Deep solemnity pervaded throughout the city, and little or no business was transacted.

THE RECEPTION OF THE INTELLIGENCE OF MR. CLAY'S DEATH AT ASHLAND.

CLEVELAND, July 7, 1852. The solemn and bereaving intelligence of Mr. Clay's death was conveyed to his wife at Ashland, where she emains in very delicate health. Her grief is said to be deep and painful, though the melancholy tidings broke upon her not unexpected. She was anticipating his death hourly. The domestics and all of the family are in deep lamentations. "Ashland" gives sad evidence that its illustrious owner has gone to the home of his fathers.

Death by a Fall, caused by Intemperance.—Vesterday the Coroner held an inquest upon the body of Amelia Cavanagh, a native of Ireland, aged 20 years, who died from the effects of a fail, received while laboring under an attack of delinium tremens. It appears that the deceased on the 24th ult., took lodgings at the house of John Perry, Nos. 5 and 7 West Broadway, having at the time the appearance of having been on a drunken frolic. At night she recired to bed, and slept in the same room with a female named Mary McCoy. At 3 o'clock she asked for a drink of water; and while Mary was getting it she got up and went to the window, from which she either jumped or fell out. She, however, clung to the shutter, but before any help could be obtained, was compelied to let go her hold, falling to the pavement, from which she was taken to the hospital, where at first it was thought she would recover, but she continued to grow worse, and died yesterday. The jury returned a vordict of death by injuries accidentally received, while laboring under delirlum tremes.

Hine.—About half past 5 Wednesday evening, a fire was discovered in the attic of the house No. 17 Franklin street, occupied by a number of families. It was occasioned by the ignition of some shavings which were placed near the stove. It was extinguished by the police and a member of Engine Co. No. 21, before any material damage was done.

SUDDEN DEATH.—On Wednesday a man pamed Samuel B. Wetraere, in the employ of John Whips, tinsmith, No. 564 Grand street, while at his work, was taken with a fit, and died suddenly. The deceased was 40 years of age, a native of Middleton, Connecticut. The Coroner was notified to hold an inquest.

More Fires—Large Amourt of Property Destroyen.

Last evening, about seven o clock, a fire was discovered in a stable at the rear of the extensive brick building on Columbia street, between Harrison and Pacific streets, occupied as a tobacco and segar manufactory, by Mr. William Henry Watson. It was four stories in height, and contained a large and valuable stock. It burned with great fury for over an hour, when being completely gutted, the walls fell down with a crash. An adjoining building, occupied by Mr. Thomas Watson as a tinware and toy store, was considerably damaged, but was saved from destruction by the firemen and others, who proceeded to the roof and dashed water upon the rising flames with buckets. His goods were much injured by water and rough handling. Mr. William H. Watson's loss will reach \$29,000, upon which there is an insurance of \$17,000 in the following offices:—Empire City Insurance Company, \$5,400; Grocers' do., \$3,500; Commercial do., \$3,500; Hudson River do., \$3,500; Astor do., \$2,500. About four o'clock in the afternoon a fire broke out in the stable of John Wood, in the rear of Hungerford & Wells' lumber yard foot of Harrison street, and within a few yards distance of Mr. Watson's establishum. The stable was completely destroyed, together with ribbre, a quantity of hay, feed &c. Another horse was fortunately taken out before the fismes had made too much progress. The entire loss will not exceed \$300. The frequency of fires in Brooklyn, of late, is attributed to incendiarism. This is the third fire that has occurred in the same block within the short period of forty-eight hours—two originating in stables, and one in a shed.

Accident at Morristown.—We learn that an accident occurred at Morristown, on Monday afternoon, of the most shocking character. Just previous to the coming down of the 6 c'clock train from Dover to Newark, two men were walking on the track near the Morristown depot, both intoxicated, and they were warned of their danger, but replied that they were not afraid. As the train approached, one of them, however, stepped off, but the other, a person named Milton Reynolds, was struck by the cow esteber, and thrown upon the track, the carwheels passing over him and literally crushing him into a mass, perfectly irrecognizable. He was about 40 years of age, a carpenter, and resided at Madison.—Jersey City Advertiser; July 8.
